Here is my input on the suggested outline (thanks to Mike Davis).

The following mentioned in RULE 1 and are covered in other rules, I believe they should be removed.

Don't try to do it all yourself??? (6.01)

Don't ignore signs of trouble??? (2.01)

Don't dodge the issues??? (2.05)

I think this should be removed:

3.06. Decline to contract for a service provided
by self.(?) ???

The word "badly" should be replaced with "not as expected" or "inappropriate".

4.06. Inform client or employer promptly if, in
their opinion, a project is likely to fail,
to prove too expensive, to violate copyright
laws, or otherwise to turn out badly.

The numbering here should be 6 instead of 5.

5.04. Criticize the work of others in an
objective, candid, and properly-documented
way.

Give fair hearings to colleagues opinion.

6.07. Give fair hearings. (to what?)
