Re: Copy of: SEEPP RESTART

Don,

I thought I would send some data to you first and ask some questions.

First, You requested a strawman from a list of materials back in June and July 95. Attached is the results. We, the "To List" have been working on this since that time. We have reviewed a number of outside sources. The attached(text) is a composit of two e-mails I sent. I assumed a leader position of the sub working Group SEEPP/E ethics. Do you want to distribute this or should I?

Second, from your e-mail, Is certification part of our working group? I volunteered for this with Mario last year. I am a Certified Computer Professional with ICCP. I am very interested in this area.

Ed
