Re: Copy of: Chi. Visit

Mike,

I will be in CHI from 4/1 to 4/3 at the AIIM Conference at McCormick Place. Is it near you? How about lunch?

Ed

Re: Copy of: Ethics Process

Jayaram,

I hope you do not mind but I am cc this message to the remainder of our new sub-task force SEEP/E (Like the name? - no imagination). I am also assuming a facilitator position, if there are no objections, to bring this task to some degree of completion. I am also sending it to the SEEPP/E because of your excuses, which are good and unlike any we have heard from any one else.

It is funny that you did not get Dons e-mail, I thought it was caused by a e-mail from you and you were on the original mailing list. Could you send us a page of how the Medical Royal College includes ethics? Also if there are interested parties in the European Commission please contact and report back to us.

In regard to my schedule, due to your excellent excuses and trying to contact the new head of the Steer Comm to see if we are on the correct path, we will slow down. First we should agree on how the final product should look like. I like an intro sentence with bullets.

Most of the ones I review were like this. Please agree or suggest options by 4/8/96. Then we will divide the sections between the members. Any way please let me know you are still out there and interested in continuing.

All in all this experience could turn out to be a good case study in ethics with the results we have so far.

Ed
