Re: Copy of: Re: URGENT : Joint ACM -IEEE Software Issues

Jay,  
The letter sounds good and I hope they answer positively.  
I think it might help the task forces get to an end.

A few e-mails ago I said something about a book after the mags. I think if they want the mags or not a book should be considered. At this time I think other mags first, if turned down, should be our first approach but we should keep working on the book. Feel free to contact anyone who might be interested. I like the idea of Cabrera or Barbacci or both as a forward. I will start listing mags and publishers next week.

It might be an exciting idea to do all this on the net. What do you think? Maybe even a net page.

Ed
