Re: Copy of: Code Drafting

Mike,

First, I think we, mainly you, must decide how far you want to go on adding words. From our conversation in Chi., I believe that you did not want to go too far due to your two rolls. In fact, while reading your e-mail a question occurred; when I pass this around to the other members of the group do you want credit or should I say an anonymous member added the words?

In regard to your specific questions, they all seem reasonable but should I or the group answer? There is no doubt in my mind that you had to rearrange clauses, found duplicate clauses and ones that are hard to place, if they can be placed. Also, how far should you go? Maybe the effort you have already completed is enough and I pass around the results plus questions? Let the group finish the effort. I must leave these questions up to you because of our conversation in Chi.

My fax number is 412-553-5970. Another question; do you want me to pass it around or do you want to? If you want to I can supply the names. If I do, whatever state you decide on, I can take it back in any of the forms I sent you and set it up for e-mail. If you can send a text file e-mail, ok, but binary on Compuserve seems to have problems if both people are not on Compuserve. So the disc would have to be sent back.

I hope I answered your questions and I am sorry about the additional ones. Let me know what you think.

Ed
