 RE : Software Engineering Task Force (SEEPF)

Dear Michael:

I don't know if you or someone in your group is still interested, but we are trying to get SEEPF back on track. Your email is down (apparently), so I'll fax you a copy of this....

Keith Miller, UIS Dept. of Computer Science

 RE : SEEPF Task Force, Working Group on Reliability and Safety  
 DATE : March 3, 1996

Thank you for your interest in ACM and IEEE effort to professionalize software engineering.

Ages ago (we're talking YEARS, not months) you expressed some interest in working on the Software Engineering Ethics and Professional Practices (SEEPF) Task Force, specifically the Working Group on Reliability and Safety.

You may have thought this working group would never get down to work. (I certainly had MY doubts.) But it looks like we may have a plan now.

Before I waste bandwidth telling you about our plans, are you still willing to work with us? I hope so. Please let me know.

Thanks for your patience (as if you had a choice).

Keith Miller

*Will try will join in. I have already sent Gottschalk a message. Please convey your plans to us. Best, Vivian Weil*

*sent 3/8/96 EF*

*I, Michael Davis, ~~Keith Miller~~ and Gene Burnstein, from IIT, are still very much ~~also~~ aboard. Pls make sure we ~~get~~ all three ~~back~~ get all the e-mail messages in the Working Group on Reliability and Safety.*
