Thanks very much for this. Please note that as of January first, this is
the Software Engineering Coordinating Committee (SWECC)

What would be the purpose of this meeting, and the duration? The most effective
approach might be to meet around 11-1 on the 29th since we have a full agenda for
the 28th and a meeting with the licensing board on the morning of the 29th. I
cannot be certain that all members will be around for lunch on the 29th, but that is
probably the only time for this.
