Jay,

Maybe you should send me yours but don't know  
why now.

I think you should send an e-mail to don to tell him  
he left you off of the list; good for other work.

In regard to searching for publishers I fell down  
on the job; just came back from a conference; age also.  
But I put these together in a hurry:

McGraw-Hill, Inc 1221 Ave of the Americas New York, NY 10020 Communications	Soft Engr book Pressman Also has a Computer Science, Engineering, and Series
Yourdon Press Prentice Hall Building Englewood Cliffs, NJ 07632	Computer Series and has always supplied books of this type
Addison-Wesley Publishing Co. Wokingham, England or Reading, Massachusetts	International Computer Science Series
MIT Press London, England or Cambridge, Massachusetts	Technical Books on numerous subjects

I will keep searching.

In regard to Diane's e-mail:

It seems joint efforts are not desirable; well  
so much for team work.

With her options I would go for the stand  
alones throughout the year.

I assume this is for "Communications" their  
major mag. What about "ACM Transactions  
on Software Engineering and Methodology"?

It seems small and could use a series.  
This could also hold for IEEE. They have "IEEE Transactions on Software Engineering". Of course these two do not reach as many people.
