Re: Responsibility and Reliability in
 Creating Computer Software

Dear Vivian:

Your concept paper is fantastic and I would be delighted to support and participate in the project. In addition to the "products" you mentioned, perhaps the project could assemble data on software failures. publish some periodical or newsletter, conduct and publish a regular survey of industry, government and academic communities . on software engineering issues.

I would enjoy meeting with you soon to discuss.

Very truly yours,

GORDAJN & GLICKSON P.C.
