Mark., as far as I know, the blue ribbon committee is only concerned with licensing. Thus I see no problem with getting ACM involved with SWEBOK reviews. In fact, many people filled out forms at the CSEET meeting this week indicating a desire to review SWEBOK work.

Regards, DIF

I guess I don't Suite know what to do with these action items right now. Given the formation of the Blue Ribbon Panel, is it premature to ask the ACM to participate in the review of SWEBOK?

Mark,

Please advise me on the status of the following action items.

1-4 Technical representatives will invite their respective societies to participate on the panel of experts of SWEBOK. first action will be to compose a list of potential candidates to send to SWECC EC. Mark Ardis and Karl Reed] [7]

1-6 Publish call for reviewers of SWEBOK ACM SIGSOFT Notices [Mark Ardis] [?]
