Subject: parking at CMU (fwd)

Ed,

I will be talking about professionalism to a software project management class at the SEI on Thursday morning from 10:30-11:50. I have arranged for you to visit the class, if you wish. Whether you come to the class or not, we could meet for lunch. I will have an hour before I have to do another recoding. I have arranged for a parking space at the SEI. The contact if there is a problem is Ellen Saxon. See the attached. The class meets in the TV studio in the basement. If the guards are not clear on what is going on ask them to call Kurt or Elizabeth in the TV studio.

Look forward to meeting you.

best regards,
don
