Laurie
It was my understanding that we were working on both.
It is call "Software engineering Code of Ethics and
Professional Practices.
Have you heard anything on the second vote?

Subject: Re: Version 4.0 of the Code

I understand that you all are working on a "Standard of Practice",
having completed the Code of Ethics. Is this true? We plan to give
a panel at FIE (and CSEE&T and SIGCSE) on the status of the Joint Task
Force on Education and I would like to know the status of other
activities.

See you in New Orleans?
