Vivian,
In responce to your question about imperatives in
categories with rational or preambles, open for
discussion. Maybe give an example of one of the
categories. I wasn't myself but each member can
take a part or suggest a form.
By the way I will be in Chi 4/1 to 4/3 and have set up
a lunch date with Mick, maybe you could join us and
discuss the suggestion. It is tentively set for tuesday.

I'm sorry for being late (past 3/25).  I think that the outline provided by
Ed is the best so far.  If there are no objections, I would pick it up as
our first draft.  If there are sections that I can be assigned to work on
please let me know which ones.  We have to agree first on the style and
scope of content to cut our work short.

```
