 Dear Dennis and Leonard,

The Department of Computer Science (and the software folks in ECE) at LIT-Austin invite the
SWECC to have a lunch meeting on the campus on January 29th in conjunction with your trip to
Austin to meet with the Texas Professional Engineers Registration Board. The purpose would be
an informal discussion on where you think software engineering is going.

Please let me know if this can be accomodated into the schedule for your trip to Austin
and if the entire committee cannot be present we will welcome those to can come.

Thanks and Happy Holidays,

Jim Browne
