Ed,
 As regards the schedule, I did draft a detailed schedule for
completion of the project as was requested by the Steering committee.
Until that schedule's details and the requested support are approved by
them, I did not feel it was right to distribute it widely, but instead
listed in general terms those steps which I hope will lead to a successful
completion of our tasks.

I understand your concern and appreciate your enthusiasm, but I did not
want to distribute anything which was not agreed upon.

regards,
don
