Re: Copy of: Re: Are We Still Working?

Ernie,

In replay to your message, your name and address has been
on the mailing list for the Software Engineering Ethics and
Professional Practices, the Professional Competence working
group since June. We just have not heard anything since July
so I sent a message to inquire if we were still working. If, like
another member, didn't know you were on the group, I can see
confusion.

Thanks for the reply

Ed
